Hi Liz. I'd just add the word "forward" at the end-looks good. Had Cindy look at it and she thought it was goo too.

I defer to Alex on process.

Re: Fw: Draft Pavillion Desk Statement

Based on Mary Hanley's talking points, we have taken a stab at rewriting the desk statement. See below. Thoughts? If you are okay with this, do you want to send to Bo Delp in OEA or do you want us to do it?

EPA has announced an eight month extension of the public comment period for the draft research report titled, "Investigation of Ground Water Contamination near Pavillion, Wyoming" to September 30, 2013. The extension provides the public a reasonable opportunity to comment on the draft report in light of new data from the latest round of sampling conducted by EPA and USGS and further details about how the study was conducted. The Agency will take into account the newly posted data, further stakeholder input, and public comment as it considers options for moving.

Re: Draft Pavillion Desk Statement

## All,

Below is the draft desk statement for extending the Pavillion public comment period. Please review and let us know if you have any edits.

## **Draft Desk Statement**

EPA has announced an extension of the public comment period for the draft research report titled, "Investigation of Ground Water Contamination near Pavillion, Wyoming" to September 30, 2013. To remain transparent, EPA will post additional technical information on the web and intends to meet with key stakeholders during this extended public comment period. The Agency will continue to review the status of

its work on Pavillion in light of the additional information posted in the record and public comments that are received.
